Our Campaign Motto

LEARNING ABILITY
is better than
LEARNING DISABILITY

Every Child Has A **Unique Ability,
If You Have Not Found It Yet, Look For It,
It Will Be There.....**

Suppose I get it
wrong?

Please don't ask
me a question....

But I may know
the answer?

Better stay
quiet...

What are we Here For?

Awareness of Specific Learning Difficulties

I BELIEVE;

all children have a right to fair education and not be discriminated

children and adults all have a unique ABILITY if not found by people, they should look for it even if it takes time

judging a child with only by exam results will not ever show their true potential in their capabilities for achievement

all children want to learn. Sometimes the environment in schools and the lack of empathy towards learning difficulties make children hate going to school

With the support and nurturing from family and schools every child can walk through life with whatever disabilities they have, learning or otherwise
